Digital infrared thermometer more accurate medical fever body thermometer

Range -Body:32℃~42.9℃,85.9℉~109.2℉
-Object:0℃~100℃,32℉~212℉
Accuracy -Body:±0.2℃/±0.4℉
-Object:±1.0℃/±1.8℉
Resolution:0.1℃/℉
Working condition:10℃~35℃(50℉~95℉) RH≤85%
Storage condition:-20℃~55℃(-4℉~131℉) RH≤93%
Power supply: D.C. 3V 2pcs AAA Batteries
Power level Indicator: Indication for low power level(□2.5V)
Memory: Automatic recall of 32 memories
Display:LCD back-lit display
Reading scale:Celsius or Fahrenheit
Automatic shut off:In 18 seconds
Measuring time:0.5 seconds

A cold fever early know A second temperature measurement Care for the baby

Non-contact infrared forehead thermometer

Fast Accurate

Rapid temperature Care for the baby

Can measure the human body, object, indoor temperature

MORE THAN JUST MEASURING TEMPERATURE

Water temperature

Milk temperature

Food temperature

Room temperature

Mercury unexpected harm you

It is very important to choose a good thermometer

The disadvantage of mercury

Measurement accuracy

ACCURATE MEASUREMENT IS THE STANDARD

Baby thermometer features:

Screen: The large screen reading

Fast: 1 second rapid temperature

Security: Avoid cross infection

Accurate: Precise measurement

Backlight: Three color backlighting at night

Three color backlighting

Child/adult body temperature gun

Product features

THE PRODUCT FEATURES

01

Rapid measurement

Accurate error-free

A second rapid temperature measurement

Infrared temperature measurement sensors

02

Chip accurate

Automatic measurement，Accurate measurement

03

Non-contact measurement

Don't need to contact, clean and health, avoid cross infection and fast measurement to solve the problem baby love moving

04

Human body engineering

Human body engineering design,
strengthen his hand grip handle experience ,
and be convenient to measure

Three color optional

THREE COLOR OPTIONAL

Product parameters

PRODUCT PARAMETERS

Range	Body	32°C~42.9°C,85.9°F~109.2°F
	Object	0°C~100°C,32°F~212°F
Accuracy	Body	±0. 2°C/±0.4°F
	Object	±1. 0°C/±1.8°F
Resolution	0.1°C/°F	
Working condition	10°C~35°C (50°F~95°F) RH≤85%	
Storage condition	-20°C~55°C (-4°F~131°F) RH≤93%	
Power supply	D.C. 3V 2pcs AAA Batteries	
Power level indicator	Indication for low power level (<2.5V)	
Memory	Automatic recall of 32 memories	
Display	LCD back-lit display	
Reading scale	Celsius or Fahrenheit	
Automatic shut off	In 18 seconds	
Measuring time	0.5 seconds	

Product analysis

PRODUCT ANALYSIS

Product analysis

Accurate probe

Accurate temperature measuring probe, Measurement accuracy, Little error

Backlit display

Backlit design, temperature can also clearly see in the night for baby, and grandma and grandpa can see without glasses.

PP material

Environmental protection PP material lets you use the product is safe and assured.

One-click button

One-click boot measurement button

Infrared forehead temperature gun

Care for your family

Packing and transportation

Common problems

1.Are you a manufacturer or a trading company?
Of course, we are a professional manufacturer with more than 19 years experience.

2. Can I provide free samples? Sampling time
When you cooperate for the first time, you'll charge a small sample fee to build the project. Your order will be returned after confirmation. You can send samples within 5 days.

What is the payment terms?
T / T: 30% deposit, 70% balance of copy of bill of lading

How long does it take to produce?
ETD: Within 25-35 days after confirming the order

5. How can we manage the quality of the factory?
I. From the approval of each material to the end of the umbrella, we have strict quality control. Generally, see AQL 2.5 // 4.0
B. Samples are approved by suppliers before production. We carry out strict quality control online at each step of production.
III. When the item is packed in the box, our quality control will use AQL to randomly inspect the product and send the report.
