SELF-STANDING

You may worry the hanging umbrella is knocked off and to dry the wet unfolding umbrella takes too much space. Then you can try this umbrella which can stand up on its own.

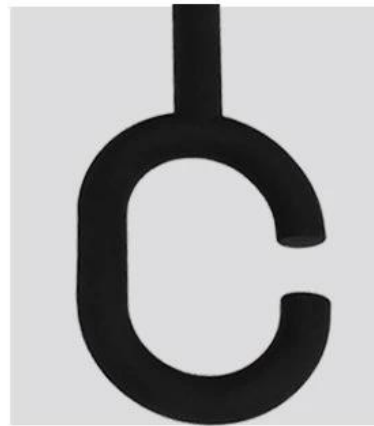

HANDS-FREE

Your hands may feel sore and tired by carrying a conventional umbrella and it is also not so convenient. The C-shaped handle specially designed by Paradise Umbrella allows you to hold the umbrella with your wrist, you can free your hands to do other things.

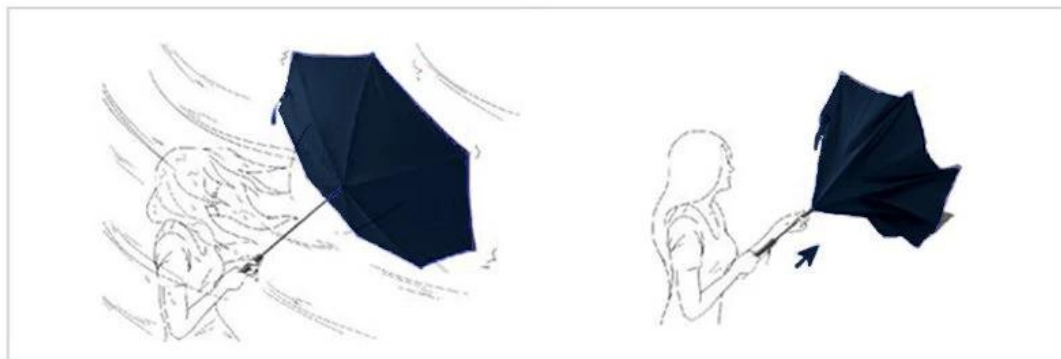

HOLD HANDLE

WIND-PROOF

With the carbon umbrella stand, it is much softer and more resilient and not easy to be broken. The umbrella cover is more stable with its stand supporting reversely. In the strong wind, the Reverse Umbrella will not be blown inside out. Instead, it will fold back. At this time, you just need to push slightly and the umbrella is re-opened.

I really like this umbrella. It is sturdy, it can be opened or closed with just a press. And more importantly, almost instant dry by just shaking.

One the metals/ribs broke after one day of use, with just light rain no wind. Very disappointing!
